

## **Rod Sudbeck**

114 Sunset Peak Ct

I moved into Lake Arrowhead with my wife Sue in January 2018. We live full time at 114 Sunset Peak Court. We have two grown daughters and two rambunctious grandsons. We have found the Lake Arrowhead neighborhood very peaceful and friendly and enjoy the lake, hiking the trails and the other nearby amenities. Visiting friends and family always comment on how lucky we are to have found a place like this to retire.

I have a B.S. in Civil Engineering and a master's degree in Technology Management. I worked 40 years in the construction industry. 10 years as a design engineer planning and designing infrastructure projects. 8 years as Manager of a City Engineering Department overseeing infrastructure rehabilitation and new developments. Six years as a sales/design representative for precast concrete products. The last 16 years I have worked at Atlanta Decking and Fence as a sales/design consultant. I am still working with them part-time with a goal to be fully retired next year.

I served as the president and national representative for South Dakota's arm of the National Society of Professional Engineers. Additionally, I was a HOA board member for the Heritage of Roswell neighborhood for 4 years leading the transition from a developer advisory board to a community owned HOA.

I have served on the LAPOA board for two years and I am the liaison to the Infrastructure Committee which is a great group of people with a wealth of knowledge and experience.

While on the board we have completed the mainline road drainpipe slip lining projects and are now working on secondary road drainpipes needing repairs. Additionally, the first phase of proper subgrade repair and overlay work on the main road has begun with several more phases to follow before moving onto the secondary road surface repairs. I would like to see the mainline repairs completed before leaving the board so I would appreciate your vote very much.
